## EXPERIENCE

### **ICARAS, Wellington (remote) — *Freelance website designer and developer***

May 2017 - December 2017

The full redesign and development of a business website for the ICARAS Risk and Security Consultancy company. Working in a team of two, my allocated jobs included initial concept designs, finalising design, full design guidelines, and initial html and css code setup prior to Silverstripe CMS framework implementation.

### **Victoria University of Wellington, Wellington — *Research assistant/scholar***

November 2016 - February 2017

Worked with a high profile client on a team of two to develop a mobile device game for children. Developed in Unity, the application focused on medical education and used augmented reality technology. Primarily I worked on the initial concept designs and creation of art assets for the game.

### **Pan de Muerto, Wellington — *Front of house/wait staff***

November 2015 - January 2017

Fast paced a la carte environment, with waitressing and bartending included. Responsibilities included: training new staff, caring for patrons, taking and serving orders, clearing tables, stocking service areas, receiving payments, cleaning restaurant after closing, and shutting down bar. Responsibilities also included basic bartending knowledge and mixology.

## PROJECTS

### **ComBAT — *Global Game Jam 2017, Wellington***

Global Game Jam is an event where teams have 48 hours to create a game based on a theme announced at the beginning of the Jam event. As part of a team of four, I was the environmental artist for the project. Project files and game download can be found at:

<http://globalgamejam.org/2017/games/combat>
